【1】 次の英文を読んで問いに答えなさい。

A long time ago, in the northern area of Belgium, there were three young men. These young men were not good people. They would often trick people, drink, and \*gamble. One day, all three of them were drinking at a hotel when they heard a \*funeral bell. “Waiter, go and see who has died,” said one of the men. The waiter ran outside and came back to tell them the things that he heard.

“The friend you drank with here last week is dead. They are having his funeral now,” said the waiter. “But our friend was healthy and happy when we drank with him last week. What happened to ① him? How did he die?” asked one of the young men. The waiter said that their friend was killed in the next village over by Death. He said Death was killing people every day, and that the village was \*taken over ( ② ) Death.

The three young men discussed how to take \*revenge on Death for their friend. They decided to go to the next village over to find Death and kill him. The next day, the three men ③ ( leave ) for the village. When they arrived, the village was empty, there was no one there. They searched everywhere for Death, but could find nothing. After searching for many hours, they met a very old man. “We are looking ( ④ ) Death! We want to kill ⑤ him,” said one of the young men, “Do you know where we can find him?” The old man was very slow, he looked at the young men and said, “I am also looking for Death. I am old, and have ⑥ ( live ) for many years. All of the people I loved have died. I asked Death to take me, but he refused. You can find him under the old oak tree in the forest next to the village.”

It was already close to night, so the young men decided to go to the forest and search for Death the next day. They entered the forest and searched until they finally found the old oak tree. “This is it! This is the tree!” As they got closer the three men could not see anyone at the tree. They saw something and forgot all about Death. Under the old oak tree were three large \*chests full of gold.

“⑦ ( this / can / like / with / live / we / gold / kings )! But if we take the gold now, someone will see us and try to steal it. We must wait until night time to take the gold.” “But we have no food or drink to wait until night!” The three young men talked about what to do. They could not \*trust one of them to stay with the gold, so ⑧ they decided that two of them would stay with the gold, while the other went to get food and drink. They \*drew

straws to see who would go to the village to get food and drink, and the youngest among them drew the shortest straw.

While ⑨ the youngest man went back to the village to get food and drink, the oldest said to the other man, "You and I can't get much gold if we \*split it three ways, why don't you and I split the gold two ways. That way we'll never have to worry." "But our friend knows how much gold is here, we can't hide any and keep it," said the other man. "Oh, we won't hide any of the gold, when our friend comes back ( ⑩ ) food and drink we will kill him! It's two of us against him, then we can split the gold in half and have even more food and drink to share!"

Of course the youngest man thought the same way ( ⑪ ) his friends, while he was in the village getting food and drink, he asked the local \*apothecary for some \*poison for rats that were in his house. After he bought the poison he put it in the drink that he bought. "When my friends drink this, I will keep all the gold for myself!"

As soon as the young man came back to the oak tree, his friends jumped on him. He tried to fight back but his friends \*outnumbered him, and they soon killed him. The other two men were tired and thirsty after killing the young man, so they each took big, long drinks of the wine he brought back. They talked about all the things they would buy with their gold. But as they talked, they slowly began to feel sick. The rat poison was killing them slowly and painfully. After hours of pain, the two other men died under the oak tree.
