【1】 次の英文を読んで問いに答えなさい。

Nobody knows what will help our lives. Sometimes a personal hobby helps people.

Once upon a time, there was a small country in Europe. The people were living in peace \*surrounded by a forest. In the small country there was an old castle with four high stone towers. The king, his family and other people were living there.

In the castle, the king said, “I hope you two will become great kings.” ①The king had two sons, Alain, 18, and Cecil, 15.

Alain was a strong and handsome man, he was quick to learn and his skill with the \*sword was so good that his teachers liked him. He talked ( ② ) many people in the castle and was very popular at the parties. Many people had high hopes for Alain’s future.

On the other hand, Cecil was not interested ( ③ ) learning or playing sports, and didn’t like to talk to people. He was not good with a sword, and he did not go to the parties at the castle.

Cecil always enjoyed ④( play ) in the forest near the castle and looking for herbs. The forest was a place of great natural beauty, with many flowers and plants.

Cecil was lying in the grass, looking at the blue sky and thinking. “The sky is blue and beautiful today. I’m so happy.”

The small country had to be careful ( ⑤ ) attacks from other countries. Therefore, it was also \*necessary to make their army bigger and to give them more training.

Two years passed and it was time for the two princes to work for the country’s army and the castle.

The king and the people of the castle had high hopes for Alain. In fact, Alain won battles with other countries and \*protected his country.

Alain made the small country’s army stronger and its businesses more successful. The small country was richer than two years ago. Alain became a popular hero.

On the other hand, Cecil was still in the forest. He said, “The sky is blue and beautiful today. I’m so happy.” He ⑥( stop ) his work in the army and in the castle,

and enjoyed himself every day in the forest.

“Alain is a good prince. But Cecil is not. We don’t know what he is thinking, and he just plays in the forest every day without doing any work.” The people in the castle talked like this, and some of them were trying to make Cecil go away from the castle.

It’s true that Cecil didn’t do any work in the castle, and he was quiet. But he was not lazy, he was a clever man.

He just didn’t like to fight with other people. He was very positive about things that interested him, and he even recorded all the flowers and plants in the forest into a book.

He wrote fourteen plant \*encyclopedias and studied plants and flowers as a hobby in the \*underground rooms of the castle.

⑦ ( the summer / an incident / was / there / in ) five years later. A \*disaster came not only to the small country but to the whole continent. \*Grasshoppers came in great numbers and attacked the farms and animals. There was an army. There was money. But both were useless against this disaster.

The food in the country was lost and the people could not move. Many countries were in a difficult condition. The king and Alain were tired and sick, and the small country \*was about to end.

But then Cecil called everyone in the castle and handed out a lot of medicine. “Everyone! Don’t give up. I will take care ( ⑧ ) it. Please give this medicine to the people all around the country.” These medicines helped to keep the grasshoppers away, cured the sick, and supplied energy. During the week the grasshoppers left, and the people were cured of their sicknesses.

⑨Cecil’s medicines helped many people. (      ) (      ) in his small country, but also in other countries. Nobody said he was a fool anymore. People thanked him and called him the hero of the forest.

The people of the country said, “Nobody knows what will help our lives.”

After the problem was solved, Cecil looked at the blue sky and said, “The sky is blue and beautiful today. I’m so happy.”

## About P-Circle

Hihara Paseri (日原 葉世里) was born in Kure, Hiroshima in 1995. From a young age her parents gave her lessons in piano and singing. In junior high school she joined the glee club, but in high school she joined the computer club. While she was in the computer club, she kept singing in her free time and started to use computers to make music. She learned how to make music, computer animations and websites. She graduated from high school in 2014 and moved to Australia to study at university soon after graduating. She studied in Australia for three years before coming back to Japan to start a career in music. Two years later she created her own website and a very popular YouTube channel. After one year of mostly covering songs from other artists she began to write her own music and is going to release her first solo album soon.
